

# ALICE Receptionist

## PRODUCT OVERVIEW

Give your corporate or commercial building a high-tech upgrade with ALICE, a Virtual Receptionist that greets and registers visitors when they enter a building and notifies employees or tenants of their arrival.

Start Saving Today!

ALICE Receptionist is a visitor-management solution that allows employees to greet a building's visitors from the convenience of their own desks.

By installing an ALICE Receptionist system in the lobby, companies can now empower employees to manage their building or lobby visitor traffic without having a fulltime staff member dedicated to the lobby area.

## ALICE Receptionist Key Features

- ▶ ALICE greets visitors as they enter your building and guides them through the Check-in process.
- ▶ ALICE notifies your staff when a visitor enters the building or when they complete the check-in process.
- ▶ ALICE easily connects visitors and employees via live 2-way or 1-way video or phone conversations.
- ▶ ALICE displays onscreen building or campus maps.
- ▶ ALICE displays onscreen information such as webpages for visitors' use.
- ▶ ALICE can take visitors photos, scan visitors ID's, screen visitors against databases and print visitor badges

# ALICE Receptionist

## PRODUCT OVERVIEW

### Greet and Connect visitors

ALICE greets and connects visitors with employees using real time video or audio communications:

- ▶ ALICE uses motion detection to greet visitors with a pre-recorded welcome video message.
- ▶ The ALICE touchscreen displays an employee or tenant directory so visitors can easily find and connect with employees by simply touching the employee card.

### Visitor Registration

ALICE registers visitor, takes their photo, scans ID cards, notifies employees and more:

- ▶ Visitor check-in / check-out
- ▶ Incorporates induction screens and / or safety videos into the check-in process
- ▶ Collects signatures
- ▶ Captures visitors photo
- ▶ Scan visitor ID's
- ▶ Screen visitors against databases
- ▶ Prints visitor badges

### Works with your existing technologies

- ▶ Works with Skype for Business
- ▶ Works with any SIP based VoIP phone system:
  - Cisco
  - Avaya
  - And many more
- ▶ Can be hosted on your network or in our cloud

### Benefits

- ▶ Improved security
- ▶ Improved visitor experience
- ▶ Professional appearance
- ▶ Year over year cost savings
- ▶ Low cost of ownership and maintenance
