Visitor Listing

Visitor Details

ALICE Receptionist customers can now access visitor information right on their mobile phone. The web friendly Active Visitor Site allows customers to quickly login and view a list of visitors for a specific date. Now, during an emergency situation, authorized individuals can quickly retrieve this information on their mobile phone or any other internet connected device.

MOBILE SITE FEATURES

- > View list of active visitors or all visitors for the selected date.
- > Tap visitor name to see visitor details including photos.
- > Tap on visitor's email address to open email application to send message.
- > Tap on visitor's phone number to open phone application to call visitor.
- > View contact information for the employee that the visitor checked-in with.

ALICE Visitor List Mobile Site is only available to customers with data hosted on the ALICE Cloud Services.
